

New Addition To The 4000 Series Single Revolution Commercial Hanging Balance Range

One of the more popular models in the successful 4000 Series Hanging Scales range has had an upgrade to bring its specification more into line with modern market requirements.

The Metric 5kg and Metric/Imperial 5kg/11lb models RH4005 TP300 and RH4005 TP200 respectively have been upgrade from 25g to 20g divisions

The 4000 Series single revolution scales are designed for all general weighing applications, with a fully comprehensive range of capacities and models to suit all requirements. The tough construction and rugged design makes the 4000 series an ideal scale indoor and outdoor, able to cope with most working environments. Large tare/zero ranges up to 15% of range offer good flexibility for weighing accessories, with accuracy to one part in 250.

The full range of models available is as follows
